Profile summary

Aspiring Software Engineer with a strong foundation in Java, Object-Oriented Programming, and Data Structures. Hands-on experience in developing console-based applications and responsive web projects. Passionate about writing clean, efficient code and continuously improving through practical learning and problem-solving. Seeking opportunities to apply technical skills and contribute effectively to real-world software development projects.

Education

CGC University

Bachelor of Technology (Artificial Intelligence Machine Learning)

CGPA: 8.52

Mohali, Punjab

2024 – 2028

Projects

Personal Portfolio Website | *HTML, CSS*

- Designed and Developed a responsive personal portfolio website to showcase projects, skills, and contact information.
- Implemented structured layout, navigation bar, and modern UI design using HTML and CSS.
- Optimized website for mobile responsiveness and clean user experience.
- Demonstrates frontend development skills and personal branding.

Lost & Found System | *Node.js, Express.js, MySQL*

- Developed a full-stack web application using Node.js, Express.js, and MySQL to manage lost and found items efficiently.
- Integrated frontend (HTML, CSS, JavaScript) with backend using Fetch API for dynamic data rendering without page reloads.
- Designed and implemented RESTful APIs (POST, GET, DELETE) to manage item records, enabling efficient CRUD operations.
- Established database connectivity using mysql2 and handled query execution with parameterized SQL for data operations.

Student Management System | *Java*

- Developed a menu-driven console application to manage student records including add, search, delete, and display functionalities.
- Implemented object-oriented programming concepts such as classes, constructors and methods.
- Utilized ArrayList data structure for dynamic data storage and efficient record management.
- Applied loops, conditional statements, and switch-case for structured program flow.

Skills

Technical Skills: Java, C/C++, Python, JavaScript

Web Development: HTML, CSS, JavaScript, Node.js, Express.js

Database Management: MySQL

Developer Tools: VS Code, Git, GitHub, Google Colab

Core Concepts: Data Structures & Algorithms, Object-Oriented Programming (OOP), DBMS, Operating Systems, Computer Networks

Certifications

Alpha – Data Structures & Algorithms with Java

Apna College

Dec 2025

Credential ID: 685d05875dccf8270e00fba6 

Programming Fundamentals using Python

Infosys Springboard

Oct 2025
